"Foreign Control." The severe critici-ma lately levelled at the Shangbai Marijime Customs are evidently the preliminary to another agitation, for it is noted that they follow a letter of the Ministry of Finance to the Political Council in which the regaining exclusive control of the Justoms is urged as a means of preventing national bankruptcy. Oaly a few weeks ago the item fithe Customs to the Chinese appeared on the agenda of the Political Council but was struck nut on the day of the session. Subsequently the Chinese press reported that the President with

drew it upon the advice of a certain foreign minister. However there is no reason to doubt the desire on the part of a section of the Chinese for the restoration of this lucrative service to purev Chinese control. Obviously the meaning of "control" is. the ejectment of the loreign staff. of the Customs and the substitution of Chinese. Now, the points which Mr. Wang Ching-lang (late chief director of the General the Customs Commissioners of Shanghai and elsewhere know nothing about the appraising of foreign merchandise and that special treatment is accorded to .

Chinese Mining Laws, The recent amendment of the mining laws in China is an ittempt apparently to mest foreign oriticism of the illiberality of the original draft. While he right was granted to foreigners to engage in mining enterprices in China, in co-operawith Chinese, the original draft provided that the holdings of foreign share-, holders should not excaed 40 per cent. of the total As amended, the law allows foreigners to hold 50 per cent of the stock. The reader who is arguainted with the terms of the Oil Concession recently granted the Chinese Givernment to the Standard Oil Company f New York will probably at once wish to point out that in this case the contract allows the foreign company to acquire a predominating interest (viz., 55 per cent.) in the enterprise. It is herefore necessary to mention that petroleum, like salt, is specially excluded from the Mining Law, as being Government monopolies "to be developed by the State," On the principle that "helf a lorfe is hetter than no bread," foreigners desirous of engaging in mining enterprise in China will doubtless welcome the 50 per cent, concession, and we have no doubt, now that these revised mining laws have been promulgated by the President, foreigness will be found ready to co-operate with Chinese in the levelor ment of the gre t mineral

THE REPUBLIC AND THE MANCHUS.

Among the special cables in our issue of Monday was one of ships by rolling discs, and after valued at \$30 and dollars in from the various clubs, and more than passing interest. It was to the effect that the Manchus of Szechuan had petitioned the Government stating that they had by expressed the view that the nothing upon which to live, and requesting the resumption of the payment of their allowances. The judividuals concerned are evidently the remnant of the displaced Manchu Dynasty, who, shortly after the declaration of the Ripublic, were, under what were termed Favourable Treatment Articles, granted certain mouetary compensations to assure them a means of existence. The Elict setting forth the future status of the imperial House provided, among other things, that the Emperor would be paid an annuity of four million taels until the establishment of a new currency, when the sum would be reduced to a like number of dollars, while the Imperial clansmen were to retain their titles, enjoy equal rights with other citizens, and also receive certain allowances. The financial stringency prevailing at Peking, however, has interfered with the carrying out gyroscope; but neither of the promises; hence the petition.

This raises the larger question of the general attitude of the Republican leaders to the old Dynasty, and here it is of distinct interest to note some suggestions which have been recently made rolling to a minimum, but the by those in authority for perpetuating the memory of the last of the Imperial Houses. The Cabinet, we observe, has been considering in such a way as to make a proposal for establishing a Bureau for the Compilation of the commercially worth while. And History of the Ching Dynasty, and has approved of the idea. It is there is the further point that felt that if the matter is to be taken in hand, it should be approached some of the plans suggested are at once, when there is less chance of the scattered records going calculated to intefere with the astray than would be the case say fifty years or so hence. Most of the requisite material is at hand, and it only requires the cooperation of scholarly men to carry the plan into effect. Incidentally, this would only be following a very desirable precedent. the past, apart from its value as a chronicle of events, the compila- to the individual than the vessel. SANITARY BOARD.

Answers Given To Mr. Bowley's Questions.

The usual fortnightly meeting of the Sanitary Board, was held yesterday afternoon at the offices of the Department, Mr. D. W. Tratman presiding. There were Col. Irwin, Mr. F. B. L. Bowley, Hon. Mr. Churchill, Dr. F. Clark, Dr. Fitzwilliams. Mr. Chan Kai Ming and Mr. E W. Hamilton. Secretary.

The eight questions asked by Mr. Bowley at the last meeting and then unanswered were replied to by the Acting Director of Public Works.

The questions were: (1.) How many of the Sewer Flushing Tanks mentioned on pages 23 and 24 of Mr. Osbert Chadwick's Preliminary Report on the Sanitary Condition of Hongkong, dated 10th April,

Oity sewers? (ii.) In the report above mentioned Mr. Chadwick offered to consider the question of flushing the Storm Water drains farther drains was before him, a footnote states that the plan was then (in 1902) being prepared: was such plan prepared and submitted to Mr. Chadwick? if not, why not? if yes, what further recommendations did he submit? and to what extent have such recommenda-

tions been carried out? (iii.) Is the water of the. Nullahs used for flushing the ed by Mr. Chadwick? if not.

(iv.) Have all unnecessary storm water drains been filled up as recommended by Mr. Chadwick?

"(v.) What means exist of flushing and cleansing the storm water drains of the City in the dry season? and what steps are being taken in this dry season to flush

(vi.) What officer or officers are now in charge of (a) the maintethe sewers and (2) the storm water drains of the City? and what staff is employed for these

When was the covered nullah from above Warchai Market to the sea last cleaused?.

(viii.) When were the other storm water drains in the Wanchai district last cleansed? The Hon. Mr. A. F. Churchill

replied as follows:-

1. Forty and ten. 2. Recorded plans have been made. They were not submitted to Mr. Chadwick, probably for the reason that the flushing of all storm water drains was not con-

sidered necessary. 3. No. In the dry season there would not be sufficient water. In any case, a storm water drain is not usually flushed,

since it only takes storm water. 4. Yes. But it is not possible to make certain that there are no junk own and disused storm water drains in Vistoria. It is considered however, that the large huilding operations of recent years have resulted in the discovery of all or nearly all.

5. Storm water drains are not flushed. Open nullahs and channels are cleaned by the Sanitary staff in the usual way; covered. nullahe and Channels are cleaned by the Public Works Department.

6. One executive engineer, one assistant engineer, one European "Hiver, two foremen and sixtyfive coolies are regularly employed. If more are required they are engaged accordingly.

7. On January 28 and 29 last. 8. All the closed nullahe and channels were cleansed at the end of January last by the P.W.D. It was agreed to recommend application for permission water closet cloakroom of the ladies'

its owner puts it into a tiny coffin and buries it, for the trainers believe that funereal honours will assure them further luck in finding good fighting crickets.

The most celebrated oricket fights are these at Fa-ti, near Canton, and Chapi, near Whampoa. A number of sheds are provided, made of matting, and are divided up into compartments, each compartment containing a table with a vessel standing on it, in which the encounters take place. The stakes are bauded over to a committee and then paid to the owner of the winning oricket, efter a deduction of 10

The happy man receives in addition a roast pig, a piece of wilk material, and a gilded ornament in the shape of a bouquet of flowers; the latter he deposits on the family altar or in one of the temples dedicated to Kwan-te. In order to enable the public to follow the proceedings on the 'turi' with greater facility, the cores are chalked up on posters on the walls of the sheds.

The excitement among the audience is just as great as at the Derby at bome. Considerable sums are lost, and high prices are paid for the winning

Quail Contests. The winter is the time for quail fights, adds Mr. Katecher. The trainers take great care of the birds. Itlemen. The Directors have o submit to you a general hent of the affairs of the lany and Balance Sheet for ear ending 31st December,

he net profits for that period, paying all charges, amount, 113,987.26.

t is now proposed to deal with net profits as follows: To. transfer to Reserve Fund

To write off Furniture, Eixtures nd Vault \$1,239 99

To write off Stationery Account To write off Organization

Account \$2,580.00 After making these transfers, here remains for appropriation 379,652.12 out of which the Directors recommend the payment f a dividend at the rate of 6 per ent. per annum on the capital, which will absorb \$68,999.91, eaving a balance of \$10.652.21 o be carried to new Profit and Loss Account.

Shareholders will ree with blessure the substantial increase n these figures, when compared with last year's balance sheet. Curent Accounts and Fixed Deposits, se well as Loans and Advances have remained on an equal level, substantial increase will be found in the Bills Receivable Account, whereas Drafts Payable

is a new item in the books. The Directors are pleased to record that arrangements were successfully made during 1913 with several Banks in America to sell drafts on Hongkong for account of this Bank which shows the increased confidence the Bank enjoys.

Our relations with foreign countries are gradually developing, we have at present 26; accounts with Banks outside the Colony of Hongkong, and the turnover of these accounts is continually increasing.

In accordance with the Articles of Association, Mesers. Lam Woo, Li Yok Tong, Lau Ting Sam and Yu Po Shen retire from the Board, but, being elegible for re-election, offer themselves accordingly.

The accounts have been audited by Mesers. Percy Smith, Seth, and

Fleming. Messrs, Louey Po Sang and Yu Tin Sam were our auditors for the past year; they now retire but offer themselves for re-election. LOOK POONG SHAN,

GENDARMES INTERFERE WITH NEWSPAPER.

(Special Pacific Service to the Telegraph-Reuter).

Peking, Received March 24. A considerable tensation was caused by the report that the Government had closed the Shuntien Shih Pao. but an investigation proves that the report was exaggerated.

It appears that at four o'clock in the morning twelve gendarmes entered the offices of the newspaper, stopped publication and prevented ingrees and egress. By means of a subterfuge, however, the staff managed to telephone to the Japanese Lagation who sent three soldiers to investigate. The gendarmes sail that the Shuntien Shih Pao had said that General Wang's soldiers and the White Wolf brigands were on the friendliest terms, and published other criticisms which were unitue and unlawful. The Japanese Minister telephoned to the Waichiaopu who instructed the Luchupu to withdraw the gendarmes. The paper was issued later.

LOG BOOK.

China's Lights. The Statistical Department the Chinese Maritime Cust has just published a list of 1 d houses, light-vessels, buoys, beacons on the const and river Ohina, which will be of gri interest to all those engaged navigation in Chinese water There is an excellent map of the o sast showing the position of lights. According to the nur mary, there are 174 lights, 5 light vessels, 43 light-boats, 146 buoy and 751 beacons, a total of 1,119 Bombay Dock.

It has been decided that, when II. E. the Viceroy opens th Alexandra, Dock, Bombay, thi month, the ship on which he wil enter the dock gates shall be th British India steamer Lhassa The dry dock opening out of the main dock will also be ready thi month, and the battleship Swift sure, the flagship of the East Indies Squadron, which has been waiting at Bombay harbour fo two months, will enter it at the carliest moment for a thorough overhauling. Whariage Tax Objection.

At a great mass meeting held

at Iloilo on March 20, attended hy representative of all sections of the community, resolution were adopted containing 11 statements of grievances agains the government's method of hand ling the city's revenues from the wharfage tax. The resolution affirms that congress never intended that the wharfage tax should be considered a general government revenue. Neglect of port improvements, it states, has resulted in converting the Hoild wharfage tax into a mere license fee for transerring cargo over an unimproved river bank. The resolution calls upon all agricultural and commercial organizations in the islands to appeal to congress through the assembly for a change in the customs law by which it will be possible to into the insular treasury.

use to proceeds of the wharfage tax for improvements at the place where the tax is collected. The resolution offers no objection to the reversion of all customs revenues except the wharfage tax Coal Ship Fleet for Panama Canal. Bids have been opened in Washington for the construction of two big colliers intended priinto naval colliers, capable of navel craft at asa. These will be the first of a great fleet of similar craft intended to maintain a sup-

ply of coal in the canal" zone for" the great number of vessels expected to pass through the Panama Canal. In time of wer all of these colliers may be diverted to naval yessels; hence they are so constructed as to admit of carrying a battery of light guns and to be generally serviceable for naval uses. The ships will ba 522 feet in length. 62 feet beam and 28 feet draft, loaded. They will have comfortable quarter for twenty-five officers and 144 crew, and will be capable of a maintained sea speed of 14 kno s. With a possible substitution of oil for coal as a naval fuel, these colliers may be turned into tank
